ADDITIONAL INFORMATION AND REQUESTS

We would like to remind you that when submitting your abstract, you agreed that the abstract and the corresponding poster/presentation, which you are going to show during the ESPHM, subsequently become available online on our platform.

Only registered attendees will be able to access these files. Through this process, the ECPHM want to give all authors the chance to disseminate their latest findings in science in the best possible way compared to the past editions.

We are convinced that this is a win-win situation for both authors and attendees having access to highest-quality digital material!

PROCEEDINGS

We are proud to inform you that your abstract will be published in the abstract book as well as on our dedicated platform.
